

**Extended deadline to 31<sup>st</sup> January 2021**  
**Call for abstracts: Pest Odyssey 2021 – the Next Generation**

Detect, Respond, Recover – best practice IPM in 2021

**Please note updated email address for abstract submissions.**

**If you have already submitted an abstract, please can you resubmit as we have been having an issue with the original email address**

This will be a fully virtual conference, 20<sup>th</sup> - 22<sup>nd</sup> September 2021 and will enable participants to focus on changes and new developments in IPM over the last ten years.

Submissions are invited for the third Pest Odyssey Conference.

We invite contributions looking at science, sustainability and climate change in relation to IPM. Additionally, papers examining how to carry out IPM well and what a successful IPM programme looks like over 10+ years. Methods of advocacy and successful ways to share the IPM message both in your organisation and the wider world will be welcomed.

Abstracts should be a maximum of 500 words and should be submitted to [pestodysseyuk@gmail.com](mailto:pestodysseyuk@gmail.com) by 12 a.m. (midnight) GMT on January 31<sup>st</sup> 2021.

Successful authors will be notified by 8<sup>th</sup> March 2021. Completed papers will be required by 30<sup>th</sup> June 2021 for peer review for inclusion in the conference publication.

Poster abstracts will be invited, but the call for these will follow soon.
